HOME DESCRIPTION

A 0.68 acre homesite gives this Barnwell plenty of room outside while the 1,369 square foot interior keeps everyday living efficient. This two story home offers 3 bedrooms and 2.5 baths with a layout designed to make excellent use of the available space. The great room opens directly to the dining area and kitchen, creating an easy and connected main level for everyday living and entertaining. A powder room and laundry area add convenience downstairs, while the covered patio creates a natural extension of the living space outdoors. Upstairs, a central loft provides an additional place to work, relax, or create a second living area and connects the primary suite with two secondary bedrooms. The primary suite includes its own private bath and walk in closet. A one car garage and covered front porch complete a home that offers usable space without an oversized footprint.
