HOME DESCRIPTION

Set back from the road with a long driveway and a 0.59 acre homesite, this Telfair offers a sense of space and privacy before you even walk through the front door. Inside, 2,771 square feet provide 4 bedrooms, 2.5 baths, and multiple flexible living areas. The main level centers around an open kitchen with granite countertops, stainless steel appliances, a large island, and walk in pantry, all connected to the main living space. A flexible dining area and separate main level flex room give you options for entertaining, a home office, playroom, or additional everyday living space. Upstairs, the primary suite features a tray ceiling, dual vanities, a five foot shower, private water closet, and generous walk in closet. Three additional bedrooms, a spacious loft, and another flex area give the second floor plenty of versatility. An attached two car garage completes a home that delivers substantial space inside with a more private feel outside.
